RE: Blue Book Products and Services

To whom it may Concern,

Lakeview Construction, Inc. has been in the Retail construction business for 22 years. We have been utilizing the products and services of the Blue Book for several years now. Our estimating dept. uses Blue Book to find subcontractors to bid on our projects all over the country. With each project we post online, they provide us with prompt and wonderful customer service. In the areas that we are needing to find certain trades, the Blue Book staff will step in and help us obtain bidding contractors.

For jobs that we have been awarded, we have utilized Blue Book to find specialty contractors, rental equipment and many other services.

Over the years we have received a lot of help from their whole staff, from the plan room dept., to our local representatives who stop in or help us over the phone, and their IT dept. can help you at any time with your computer program issues.

Their website has a lot to offer to every trade in the construction industry. It has definitely helped us land projects and get the competitive bids we need to do the job efficiently and accurately.

They are always expanding their subcontractor database, which is ideal in the fact that we always have subcontractors to bid for us in the areas we need.

Our entire staff at Lakeview use their services, to include Estimating Dept and Project Management.

Lakeview Construction, Inc. would highly recommend you start your relationship with Blue Book TODAY!
You could be grow your business with them!

Respectfully,

The Lakeview Construction, Inc. Staff
