I've been a customer of Blue Book since 2007 in Chicago where they had an actual book program. When the business moved to Wisconsin, I got back in the Blue Book and joined the internet only because I knew it would help the commercial side of my business. I get almost all of my commercial work from Blue Book such as Auto Zone, O'Rielly Auto Parts, Walmart, Toys R Us, Ruby Tuesday and more.

These are some of the examples of the relationships built from being found on the thebluebook.com and from Blue Book project leads. Blue Book is the only method I need to get in front of the commercial construction business I'm looking for. Our timely, quality work has resulted in multiple projects. I would recommend Blue Book to any commercial contractor or supplier interested in building relationships in the commercial industry.

If you are looking to find out more about thebluebook.com, contact Debbie Rosado at 414-628-4452 or email her at drosado@mail.thebluebook.com for a local representative in the Milwaukee area.
