Subject: RE: Junk King Credit Reference

Terina,

I have used Junk King on a sub-contract basis on several projects and can highly recommend them for demolition and for trash and debris removal.

Great communications, an appropriate sense of urgency, a willingness to stay with a project until I was satisfied with the result, and they didn't run up the costs once the project was underway. A very professionally run organization. I will continue to use them for these reasons.

I suggest that they can be trusted to perform well on projects related to the NTMWD.

Sincerely,

Jim Claytor
