Joe:

As you know, Champion Builders has been a favorite contractor of ours for over 30 years.

The workmanship, the cooperation, and the site supervision are always the best of any construction company.

Most of our projects in recent years have been the adaptive use conversions of vacant buildings to apartments. The recently completed Old School, Luzerne Avenue, West Pittston, PA, is a great example of the highest quality work that Champion Builders provides.

Thanks for your help in past buildings. We're always looking forward to working with you again.

Sincerely,

Ralph J. Melone, AIA
