

Birchez at Chamber Senior Housing

During the conceptual phase of the Birchez Senior Housing project, we decided we wanted to build energy efficient and sustainable housing for our senior residents. We wanted to contract with an expert in the green building field and that is exactly what we did. During the design phase, Malcarne Contracting provided us with expert consultation and consistent reliable services. Through the construction phase, Malcarne Contracting installed insulation and lighting, performed air infiltration reduction measures and built a solar PV array and Solar Thermal array for all of our housing units. They did a fantastic job and were a pleasure to work with! Their workers were always professional and courteous. They were quick to respond to any questions and issues we had. I would recommend Malcarne Contracting to anyone who is looking for a true professional.

Anthony Romano

Senior Project Manager

A handwritten signature in black ink that reads "Anthony Romano". The signature is written in a cursive style with a large, stylized initial "A".
