

Customer Testimonials

HI AL! I want to thank you for the quick service you gave me in removing that boulder under my porch and building me a new retaining wall. Things came out great. Attention to little details makes a big job easier and come out right. I like that. I'm a detail guy myself. I will call you for future projects.

I did rate your company with a five star in all phases with ServiceMagic. I hope that helps you.

A good experience, all things considered. Al Kemmett and the crew are hardworking and professional. They were on time from the beginning and the contract price was reasonable. I am pleased with the quality of the job and would hire again and recommend to others.
