RE: True Power Solutions

To Whom it may concern,

Omer and his team at True Power Solutions have been a great benefit to our company since 2013. Their proposals are competitive their work and professionalism is top notch and second to none we have used in many years. They have completed and estimated \$250,000.00 in commercial electrical revenue in 2013, and will surpass that mark with us this year. If you have any questions regarding their performance on commercial projects please feel free to call me directly.

Thank you,

  
Mark Larson  
Manager
