

THE LAW: Whenever Concore is at a job site, as licensed and fully bonded and insured general contractors, it is our responsibility to be in complete compliance with all COVID-19 safety guidance issued by Cal/OSHA. We carefully follow every order and element of guidance that apply to work performed at all of our job sites.

RESPONSIBILITY: We're construction professionals with integrity, so in addition to following official guidelines, each of us at Concore is committed to taking a personal responsibility in fighting, and ultimately conquering the COVID-19 Pandemic to save the communities in which we live and work.

ABOVE & BEYOND: But we don't think that following official guidance is enough. We go beyond what is required and insist that every one of our sub-contractors at each and every one of our sites adheres to all safety protocols at all times. If they don't, they risk being immediately removed from the job site. Period.
