Ryan,

I just thought it appropriate to write you a quick letter to thank you and your organization, APX construction. In a two week period you and your organization designed, blueprinted, built and readied for occupancy a space that required demolition, construction of walls and offices to be built, carpet, paint, new windows, doors, cleaned up and received the certificate of occupancy. I have never seen or heard of such a feat and would not have believed it had I not seen it with my own eyes. The workmanship is top quality and we have had zero complaints, headaches or regrets. Having been a part of a dozen or more build out projects such as this I can say that the attention to detail, commitment to deliver on schedule and the communication exhibited by your organization far exceeded our companies' expectations. You would be our first call on any future construction work, without question. Having recently had the occasion to look back on the timeline my records show we signed the lease on 8-28-14 on where occupying the building on 9-15-14 with a valid certificate of occupancy.

Not only has your build provided us with a first class presence in Mankato that has received compliments from all our clients but in delivering it on time you allowed us to lease our previous space and take advantage of a great opportunity. Not having the space ready in such a short time would have put us in a very tough, untenable situation. Please feel free to share my strong favorable sentiments (including this letter) with any future clients of yours and give them my phone number. I would be happy to explain to them why APX and Ryan Evanson have earned all my construction business.

Greg Saer,
Owner
