Our Story

J&J Construction is a company whose main focus is quality, customer service, and satisfaction. Our sales and customer service teams are dedicated to spending time with our customers to understand the goal they are trying to reach and help guide them with our knowledge and experience. J&J is a company that believes in the value of a handshake.

We put customer satisfaction over profits to ensure that every job no matter how small or large is completed to our best ability. We offer a different test as needed. Our project managers and superintendents have worked together for over 18 years. We can work with a heavy gauge and light gauge metal studs to wood framing, sheetrock, roofing, siding, painting, and much more. At the end of every day, we walk away from a clean Jobsite proud of the work we have done.
