Mr. Kevin Bragg
CHRISANNTHA CONSTRUCTION
BOX 162 GORHAM, NY 14461

Dear Kevin,

I would like to take this opportunity to thank you for the excellent job you and your people did in the construction of our new facility. From the inception of design to the very end you made this a pleasant experience and easy transition for our company. I also would like to comment about your foreman, Mark Enos. He was very professional in his work and I consider him to have a keen eye for quality and detail. You should be very proud of him and consider your company lucky to have him. He is undoubtedly a most important asset to your team of excellent workers and craftsman.

But most important was the overall quality of the work. As you know our company deals in precision and no doubt I was very "demanding" in your work. Chrisanntha proved to be "Top Gun" on my list of companies that can perform to my expectations. We looked at many builders before choosing Chrisanntha, and we chose you based on your reputation and looking at other jobs you have done. (Heiser building) And without reservation I can say Badge chose the right people for the right job. I look forward to the future in doing more work with your company. And please feel free to use our building as an example for what other people can expect from a premier company such as Chrisanntha. I would not hesitate in recommending your company to other prospectives. Congratulations on another job well done.

Sincerely,

GRANT W. OBERDORF
VICE PRESIDENT OF OPERATIONS
BADGE MACHINE PRODUCTS
