To whom it may concern:

After a business relationship spanning 16 years in facility services, renovation construction, and hundreds of new store buildouts, I highly recommend Piece Management Inc (PMI).

PMI has consistently proven to be an industry leader in the construction field. They achieve this by abiding to tested, efficient protocols and systems while maintaining a natural, respectful connection with their clients. Best said, I feel a strong sense of specialized camaraderie with PMI and not seen as a series of purchase order numbers to them. They resolve complex issues, concerns, and challenges through an individual approach and will not employ a singular "cookie-cut" solves.

PMI's client-focused business strategy is grounded on quality workmanship, a range of services and strong processes. For these reasons, I am excited to provide my strong recommendation. Please contact me at 516/ 659-4082 should you like to discuss further.

Thank you,
