

Testimonials

“Derrick and his team are the jacks-of-all-trades for anything involving home remodeling!!! We had them do several projects for us, both big and small. They removed walls to open up our living area, resurfaced our brick fireplace with stone, repaired wood flooring, changed lighting, added a solar tube, put in wood beams, and many other miscellaneous jobs.

We are completely happy with Derrick’s professionalism, quality of work, communication, and pricing. Would highly recommend him to anyone looking for an affordable, ethical contractor to improve their home.”

“I had Derrick come in and work on our Kitchen/Living room remodel a little over a year ago. Derrick not only got the job done on time, but the quality was exactly what I was hoping for. I’m an architect so I had the design all planned out in my head how I wanted the kitchen. I can say the finished project came out better than expected. I would use Derrick again on any future projects, and I’ve recommended him to anyone I’ve come across who had a remodel project.”

“I work with Derrick Thomas of Thomas Construction all the time and rely on him for quality guidance on real estate deals. Derrick has a ton of experience across the board and is a total straight shooter. I have worked with Derrick and his employees since 2009. I highly recommend him!! Plus he gives free consultations!”

“We have used Thomas construction for several entire home remodels, as well as some smaller jobs. Derrick and his team get the job done quickly, on budget and are very knowledgeable about every aspect of the construction process. Derrick is great at seeing our vision for every project and executing it with little oversight. Not only are they good at what they do, they are good guys who you can trust to show up and get the job done as promised.”

“We are a non-profit social service agency that operates residential housing for the homeless and under very tight budget constraints. We came across Thomas Construction a few years ago and

have continued to use him as both a general handyman resource as well as for general construction projects. He operates with integrity, makes things right if we have any concerns (very few and always minor), works within our budget as best he can and still run his business, and is very responsible. He works well around our clients and I highly recommend him. He is a pleasure to work with.”
