Denney Excavating, Inc.
2050 S. Harding St.
Indianapolis, IN 46221

To whom it may concern:

Denney Excavating was contracted to demolish the former Caribbean Cove indoor water park, hotel, and convention center located on a 10-acre lot at 3850 Depauw Blvd., Indianapolis, IN. This project included the demolition of the water park, the 5-story hotel along with a 3-story section of hotel and include the removal of the convention space and attached restaurant. Denney Excavating recycled a large volume of concrete on site and was able to reuse the material to backfill and grade the site to prepare it for future construction.

Due to this demolition taking place over the winter, weather and holidays did affect the schedule, but Denney Excavating was able to communicate throughout the project and deliver the completed site as requested by Drury Development.

I would highly recommend Denney Excavating to anyone who needs a professional, and forward thinking demolition company for their project.

Sincerely,

Mitch Crews
