Congratulations, the Supplier Clearinghouse is pleased to inform you that in accordance with General Order 156, your business enterprise has successfully completed the verification process, and your company has received the following certification:

WBE

Your certification enables your company to be recognized as a minority owned business when competing for procurement by public utilities participating in the Utility Supplier Diversity Program.

This certification is valid for three years with the following conditions:

1. You must notify the Clearinghouse of any change in ownership and/or control of your business enterprise within 30 days of the change. Failure to notify the Clearinghouse violates section 8285 of the Public Utilities Code, which is cited in the application.
2. The Clearinghouse may reconsider your certification status if:
 - a. It is determined that such status was knowingly obtained by false, misleading or incorrect information.
 - b. In a formal opinion, the California Public Utilities Commission determines that the WMBE verification criteria under which you were deemed eligible is no longer valid.
3. The Clearinghouse may request additional information or conduct an on-site visit at any time during the term of your verification. As a result of the site-visit, if it is determined that your company has violated condition one or two of this section, your company may be subject to deverification.

The Supplier Clearinghouse Certification is valid for three years. If the Clearinghouse has verified and certified your company using the comparable agency verification process, your certification expires the same date as the comparable agency certification expires. Also note that if the comparable agency certification exceeds three years, your Supplier Clearinghouse certification is only valid for three years and you are required to submit an application for re-verification after three years to retain your eligibility.
