

## ERWIN CONSTRUCTION CO.

June 27, 2014

Jerry Copeland  
Vice President/COO  
Interior Solution Services

To Whom It May Concern:

It is a real pleasure for me to recommend Interior Solution Services as your hardwood cabinet provider. As vice president for Erwin Construction Company, the general contractor for senior living and memory care facility projects nationwide, I have had the opportunity to see a wide range of skills and workmanship. Interior Solution Services provided excellent workmanship on our recent senior living facility of a challenging 75,500 square feet.

Interior Solution Services is a newer company but in my view they are making giant strides in earning a great reputation. We are in fact negotiating with them for our next senior living facility underway and look forward to a growing business relationship into the future.

Again, it has been a pleasure working with Jerry Copeland and Interior Solution Services and they will definitely be used on our projects as we move forward.

Sincerely,

Doyle Hubbard  
Vice President  
*Erwin Construction Company*
