RE: Letter of Reference

To Whom It May Concern:

I have had the great pleasure of working with Ms. Romena Jonas, Principal of Pari & Gershon Incorporated for over a decade.

Under her leadership, Ms. Jonas has overseen millions of dollars of design-build construction projects for the United States General Services Administration (GSA) in California and Nevada.

As a Contracting Officer for GSA in San Francisco, California, I have witnessed Ms. Jonas' abilities to grasp and control with an umbrella effect, all entities involved and place them in a "win-win" situation in most all instances.

I have found Ms. Jonas' team always easy to work with; the work has always been quality in nature and the company has always fulfilled all its commitments.

I highly recommend Ms. Jonas and her team for any engineering design and construction services.

Best regards,
