

To whom it may concern,

My name is Larry Morton I am the Chief Engineer at 80 Broad Street. Gateway Builders Construction have been performing office buildouts at my building for over a year and a half. I find Gateway to be top notch among the construction companies that I have worked with in my 37 years in the commercial real estate industry. They are a dedicated company that sticks with a project through thick and thin even when schedules are tight and budgets are running low. I find their job supers to be knowledgeable, competent, and helpful and their workers to be skilled tradesmen. Gateway in my opinion has gone above and beyond and has assisted me with building issues that fell well beyond their scope of the project that they have been contracted too. From start to finish on several projects they have performed in a very professional manner and have delivered a quality finished product. I am happy to recommend Gateway builders to any building owner or Real estate Management firm.

Best Regards

A handwritten signature in cursive script that reads "L. J. Morton".

Larry Morton

Chief Engineer 80 Broad Street
