Re: Appreciation for Work on the EverBank Field Improvements Project

Dear Keith,

I wanted to thank you and your staff for Campbell Plumbing's successful performance on the recently completed EverBank Field Improvements project for the Jacksonville Jaguars and The City of Jacksonville. From the bid process through final contract closeout, this was a large scale, fast pace project that required excellent leadership, project management and field supervision, which Campbell Plumbing performed timely, professionally and with great quality. I look forward to working with you again on future projects, and I would recommend Campbell Plumbing's services to any Owner or Contractor.

Sincerely,

A handwritten signature in blue ink, appearing to read "W. Huff", is written over a light blue horizontal line.

William Huff
