Re: MWW Group Construction Project
1155 Connecticut Ave, NW
Suite 1000,
Washington, DC 20036

Dear Gentlemen:

It is with great pleasure I write this letter to congratulate you on your fine efforts and to promote the extraordinary work provided by Res/Com Solutions, LLC at our 7784 square foot project at 1155 Connecticut Ave lobbying headquarters. To say we were pleased with the degree of assistance you provided in the architectural drawings, furniture and AV installation, and to the quality of work detail provided through your supervision by the various subcontractors through the entire construction process would be an understatement. Your superior work ethic and dedication to the trades were more than noteworthy.

In addition to the staff, the entire Executive Committee of MWW Group, also would like to extend to you our sincerest thanks for making the usual nightmare of meeting deadlines and budgets as painless and non-eventful as you did. Your accomplishment of completing the project prior to the construction time line projected, and your contributions and recommendations that resulted in lowering the total cost estimated was more than commendable.

With that being said, please feel free to visit our 11 floor space any time you would like to walk potential customers through for a thorough review of the specialty detail of your quality design, plan and construction of class A office space.

I would gladly welcome any inquiries to the quality of workmanship and dedication you've provided our company. I wish you and Res/Com Solutions, LLC continued success and growth.

Sincerely,

Vincent P. O'Brien
Vice President of Property Management and Procurement
