Re: Allen Tel Certified Installer Program

Dear Jeremy,

Congratulations on the successful completion of the Allen Tel Certified Installer Training Program. We are enclosing your Certificate of Completion.

We sincerely appreciate your confidence in choosing Allen Tel Products as your supplier for connectivity products. The Allen Tel Certified Installer Certificate is designed to provide the end user with additional assurance of product performance plus the integrity of the installation.

Allen Tel's Certified Installer Program is recognized by the BICSI Education Advisory Council. Participants, who hold BICSI RCDD and Installation designations, need to send BICSI a copy of the Certificate of Completion to receive their renewal credits.

Our goal is to provide quality products while expanding our product offerings and capabilities to continue to meet your changing needs. Only by serving our customers well, do we justify our existence as a quality manufacturer.

Thank you for your continued support of Allen Tel Products.

Sincerely,
ALLEN TEL PRODUCTS, INC.

Al Eddings
