

16 April 2018

To whom it may concern:

I coordinate all wiring requirements for Labcorp in Southern Arizona in our PSC's (Patient Service Centers) and IOP (In Office Phlebotomists).

I was introduced to Jeremy Parker when we (Labcorp) needed to get our OBSTETRIX office wired for our IOP/Pc.

Jeremy Parker did all of that wiring for us. After that this original contact, Jeremy was added to the top of my list of Trusted Cablers in the Tucson area along with 2 other vendors.

When I needed a site cabled, I realized that I was calling Jeremy / Gray Cliff more than any of the other Cablers on my list and found in some urgent cases, he was able to do the job that same day.

I have been a steady customer since then. I will continue to use Jeremy/Gracliff for any wiring needs that arise.

Thank you for your attention

Robert A Marlowe
