Re- Ceiling Pro International

Over the past 3 years Ceiling Pro and Jeff Anderson have been invaluable partners as the Staples Fulfillment Center in Arden Hills made major improvements to the upkeep and housekeeping of the warehouse and office space.

Over this period Ceiling Pro were able to first clean the tiling in the office and break room spaces considerably brightening the areas to the benefit of all.

Due to the success of that process the team from ceiling pro began the process of cleaning the warehouse ceiling and walls on off hours so as not to interrupt the Staples associates fulfilling customer orders. From there the logical next step was to paint the ceiling and walls.

At this point the building feels 20-30 years younger on the interior and the associates have a cleaner, brighter area in which to work.

I would recommend the services of Ceiling Pro and Jeff Anderson to all in need.
