To Whom It May Concern:

Re: JKS Industries, LLC and Surety Bonding.

This letter confirms that we are the bonding agent for JKS Industries, LLC. This letter also confirms that we have never received a single complaint as to performance or payment of obligations under the various construction projects that JKS Industries has completed.

Surety bonds for JKS Industries are underwritten by Westchester Fire Insurance Company, with an A++ (Superior), XV rating from A.M. Best. JKS Industries currently has a \$1,000,000 (single) and \$1,500,000 (aggregate) bonding line, and the majority of this line is currently available. However, please note underwriting of bonds is based upon favorable review of current business financial statements, contract documents, and owner financing arrangements for each project.

We are pleased to recommend JKS Industries to you, and feel that they will do a great job for you on any project. Should you have any questions pertaining to JKS Industries or their bonding capacity, please contact our office.

Sincerely,

Cynthia M. Burnett
Senior Vice President
