

Sheri, I just wanted to take a moment and thank you for the most effective security system I have ever seen. You may remember that in the two months prior to installation of your system my business suffered losses nearing \$80,000 dollars. With the buildings situated the way they are it is near impossible for the police to surround the building and apprehend the criminals.

Since the system has been installed I have not lost so much as a single bolt! Yes they have been here but we have the video and are able to respond and meet the police. I have been broken into at least 8 times in the last few months and nothing has ever been taken. Your system has saved my \$\$\$\$\$

Thank you again

dt
