

You will recall that Sheri McKinney with Verified Security Solutions did our last LNL. She talked to us about wireless security cameras. I recently had her install some at a vacant property and so far I am quite pleased. Sheri was very responsive and easy to work with. The bonus is I am VERY pleased so far with their monitoring service. Unfortunately I set my own alarms off a few times and the monitoring personnel I have had call me were very easy to understand, never talked too fast, friendly and pleasant to deal with. Check out the attached video to get an idea of what you see.

If you have the need, give Sheri a call. In case you lost her card, her contact information is:
