Dear Kelly,

I would like to personally congratulate you on successfully completing the Haag Certified Inspector program! The photo identification card included with this letter is yours to hold on to as proof of your current year certification.

A benefit of being a Haag Certified Inspector is access to our "HCI Only" portion of our website: www.haagcertifiedinspector.com. At this site, you will be able to sign in by clicking "inspector access" using your username and your password. Your account should be active within two weeks of the course completion day. On the website you will be able to purchase Haag Certified Inspector logo merchandise sold exclusively to Haag Certified Inspectors.

As a Haag Certified Inspector, you are responsible for the content of your online profile. You have the ability to change or hide certain contact information on your own under the Account Information section on the website. If you should choose to have your photo removed from your profile, please contact Haag with that request in writing at education@HaagGlobal.com.

In addition to merchandise in our "HCI Only" section, we have posted electronic versions of a special HCI logo for your marketing purposes. Terms of use of the HCI logo will also be posted in the "HCI Only" section. Please be sure that you are familiar with the HCI "Terms of Use" document prior to using the approved logo for any printed or electronic marketing materials.

We offer a \$25 referral bonus for any qualified, fully paid student you refer to the HCI program. Please make sure that anyone you refer lists you and your Haag Certified Inspector number under the referral portion of the registration website. This referral will be paid to you at the completion of the program they attend. You can earn up to \$250 per calendar year!

We will be offering special discounts toward merchandise and other Haag educational products for those who refer registrants to the Haag Certified Inspector program. Visit the website frequently so you don't miss a thing!

Once again, congratulations on your achievement of successfully completing the Haag Certified Inspector program! We hope you will take the Haag Certified Inspector certification, apply all you learned and put the certification to work for you!

Sincerely,

A handwritten signature in black ink, appearing to read 'John D. Stewart', with a stylized flourish at the end.
