

RCN CABLE

AVT Builds New HD Production Truck for RCN Cable

Applied Video Technology, Inc. (AVT) was contracted to provide equipment, design services and installation to implement a full HD Mobile Production Truck for RCN Cable TV in Bath, PA. The AVT sales and engineering team worked closely with RCN engineers throughout the course of the project to design the complete renovation of the truck. Features include an all new custom interior, electrical wiring, audio and video wiring and updated HD production equipment including

Sony HXCD70 Triax cameras, Sony MVS6530 HD switcher, Sony production monitors, AJA HD recorders, Black Magic and Cisco routing, Chyron Lyric HD graphics, and two NewTek 3Play instant replay systems. The truck is primarily used for sports production for events like the Pennsylvania Interscholastic Athletic Association baseball playoffs and for coverage of Lafayette College athletics on the Lafayette College Sports Network.
