T & R Alarm Systems, Inc.

Re: Security System

Dear Tom,

On behalf of Berje Inc., I would like to thank you and your staff on the outstanding job that was done on the installation of our security system. The door and motion detectors, along with the perimeter and internal camera system that gives us the ability to monitor the facility from our computers and cell phones works well and gives us a sense of security when we are both on and off site.

Your staff handles itself in a very professional manner and they are very friendly and helpful.

We would recommend your company to anyone looking to install or upgrade their security system. Please feel free to use us as a reference.

Sincerely,

Frank D'Amico
Regulatory Director
Berje Inc.
