To Whom It May Concern:

I have had the pleasure of working directly with Dependable Electric for over 5 years. This is a small business that operates as a large business in terms of their reliability, knowledge, and overall expertise in the Electrical Contractor space.

What has impressed me the most about Dependable Electric is their ability to effectively listen and understand my needs, and offer a variety of solutions. They do so with the utmost respect for my time and my budget.

It's not very often today that we can use the words "trustworthy" and "small business" in the same sentence, but I am honored to do so when talking about Dependable Electric because of their top notch workmanship, their follow through, and their dedication to customer satisfaction.

I would highly recommend Dependable Electric to anyone looking for expert service at a fair and competitive price.

Sincerely,
