To Whom it may Concern:

It is indeed a rare occasion that I find myself honored to work with a General Contractor and thoroughly enjoy the association through the construction process. Without reservation, I can make that statement about Williams-Brown, Inc.

I have had the opportunity and privilege of working with Jeremy Brown, Chad Williams and Heath Kelly of Williams-Brown on several projects. The educational projects we have worked on together were complex renovations on a very tight timetable. They completed the scope of work exactly on schedule, high in quality and well in preparation for the new school year to begin. More importantly, their regular communication to our office with foresight of conflicts ensured the project schedule was maintained. They even extended their scope of floor refinishing to assist the school district as they were shorthanded to complete the floors in time.

In today's society, it is difficult to encounter professionals that perform with utmost integrity. However, Williams-Brown, Inc. breaks the mold for conducting business with integrity. All of the administrative paperwork associated with the construction process is timely and correct. Their conduct is always professional and courteous. Often, any additional supportive documentation requested is resubmitted within the same day. They have also generously assisted us with budgetary estimates to facilitate a decision-making process for potential client projects.

Honesty, integrity, quality and attention to detail are defining experiences that I have encountered with Williams-Brown, Inc. No matter the project, I am confident they will perform it with their full resources to ensure success. Their eyesight is always focused on a successful end result. Therefore, I am pleased to give my full recommendation of Williams-Brown, Inc. Construction.

Sincerely,

A handwritten signature in black ink that reads 'David C. Luttrell'. The signature is written in a cursive, flowing style with a long horizontal line extending from the end.
