Dear Rich,

Just wanted to send you and your entire staff another THANKS. Without your support the class and show could never been done. From you lending the barges and tow boats and the logistics on your end along with you working with the Coast Guard for permits this was a great feat to pull off. Your staff played a huge part in the show as well. The Pyrotechnic Artists could never have put this type of show or class together without you. You have helped everyone in this class gain great experience and knowledge and the knowledge of safer fireworks shoot site.

Respectfully,

Howard Fry President Pyrotechnic Artists, Inc.
