RE: Tony Flores

To Whom It may concern:

I have known Tony since the early 1980s, not only as an Architect but also as a Contractor. He has been able to wear both hats because he not only is able to draw a project but he also understands the intricacies of construction. He helped me with a residential project and his input was invaluable because he understood and addressed the budget concerns of the owner.

Please feel free to call me if you have any questions.

Sincerely,

A handwritten signature in black ink that reads "William Furbush". The signature is written in a cursive, flowing style with a long, sweeping tail on the final letter.
