RE: Coe Creek Fish Screen and Stream Restoration Project

Greetings Kevin,

I am writing to express my appreciation and gratitude for the outstanding job Tapani underground did on the recently completed Coe Diversion project for the Middle Fork Irrigation District.

The Coe Creek Fish screen installation and stream restoration project was completed in a professional and timely manner despite some challenging and tight working conditions.

Your company's concrete work was outstanding and the stream restoration/cross vane installation went very smoothly and fully met the Districts expectations. Your crews were always pleasant and helpful. It was obvious they take pride in their work.

I would like to especially mention Grant McDaniels performance on this job. It was simply a pleasure to have Grant involved in this project and I would look forward to working on any job with Grant and the rest of the Tapani crew in the future. Jerome, Dean and Joe also deserve recognition for a job well done on this project.

I would not hesitate in the least to recommend Tapani Underground to anyone looking for an outstanding contractor.

Thanks,

Craig DeHart
