Subject: Job well done

Hi Kevin

To many times we hear about what we do wrong and certainly as a regulatory inspector I have to be the bearer of bad news. So today I wanted to be the bearer of good news and say a job well done on the SR501 Ridgefield I-5 project.

Yesterday myself and a new ecology inspector in training conducted a site visit of the Ridgefield project and was very pleased to see what a good job your crews are doing managing the stormwater, erosion and sediment control. I truly appreciate the extra efforts Tapani Underground is doing to protect our environment. Keep up the good work and certainly feel free to contact me anytime if I can be of assistance or you have any questions.

Sheila Pendleton-Orme

Senior Construction Stormwater Inspector

Department of Ecology VFO, Water Quality
