Re: Approved Applicator Letter

Sir:

Please allow this letter to serve as certification that LJS Waterproofing is an approved applicator of Spetec Chemical Grouts. They are very qualified to pump our Acrylate, Polyurethane and epoxy grouts. We have a successful history of working with LJS Waterproofing.

As far as we are aware all of LJS Waterproofing Spetec projects have been successfully concluded and the products are performing as expected.

Sincerely,

Anthony sandone
