To Whom It May Concern:

I have worked with Ivan Medrano/ I & D Plastering over the past 8 plus years.

I personally worked with I&D Plastering on an office building project last year. I&D performed stucco, masonry veneers, and limestone retaining walls. The quality was very good.

I look forward to working with Mr. Medrano on future projects.

I would recommend I&D Plastering to fellow contractors and individuals looking for quality masonry and stucco work.

If you need further information, please feel free to contact me.

Regards,

Anthony Bollinger
