

I am Vice President for Construction for HC Construction Services. We build townhomes in Charlotte for Hopper Communities. Robert Johnson's company, Champion Plumbing, has handled our construction and service plumbing needs since we started in early 2016. He came to us through high references from respected business friends of ours. During this time, we have built approximately \$20,000,000 total volume Townhomes in the Charlotte area. Robert and Champion Plumbing have been a valuable Trade Partner for us. Robert has strong personal character in terms of doing what's right and standing behind his work and this is reflected in how his company executes the work it does for us. He will perform his duties well in whatever phase of work he enters. Sincerely,

Tom Dorsett
