

***“It’s been eight years since our paint company started applying ShieldAll for our major account, a national builder.***

***In all this time, there has not been any evidence of mildew problems on any of their jobs in Houston, Texas.”***

**Frank,** Painting contractor, Texas

***“ I found a hole in an area of the [foundation] slab where termites had built “mud tubes” ... that were giving them access to the wood framing and floors.***

***I scraped the mud tubes away, cleaned the foundation and filled it with the 2020. Over the next five years ... I never did see them in the foundation wall again.***

***When we sold the house, the home inspection revealed “no termite activity” in the report.”***

**TIM,** Long Beach, California

***“I had mold growth in the ceiling of our main bathroom that I continued to bleach every three months for several years.***

***I found ShieldAll 1020 for mold prevention after hearing about it from a friend. It was so easy to apply and all I needed was a roller for my application. It has been close to two years now, and I see no evidence of mold growth at all.”***

**BRIAN,** Blaine, Minnesota
