

Testimonials

“I want to thank you for the beautiful landscaped yard you and your crew installed for me. I have already enjoyed my evenings more on the patio and will do so for many years to come. Mainly, I would like to recommend your crew who were exceptional, I believe, in that they were neat and clean in appearance, polite and professional, and focused on the work at hand. They also cleaned up beautifully each day before they left. I think it’s rare to find all those qualities in a landscape crew.”

-Pat Stucky

“I am writing to let you know how pleased we are with our new landscaping and how impressed we are with Cherry Landscape. Our first contact was with Eddie (owner) who listed to what we wanted and walked us through his vision of our yard. He pointed out that removing the cement pad where our spa had been would help tie the back and side yards together. This was something we had not considered – nor did the other companies who gave us quotes – and it has made the yard look so much better.

The crew was pleasant and there were very hard workers. Many of our neighbors have commented on how nice the yard looks and we will not hesitate to recommend Cherry Landscape.”

-Kim West and Pat Walker

“Cherry Landscape has provided landscape maintenance and service for our Southern Arizona Region for at least the last two years. This includes twenty to thirty branches in the Tucson Metro area. I’ve found them to be professional, competent and extremely dependable. They provide normal periodic maintenance required for our facilities and also provide recommendations and suggestions regarding upkeep or replacement as needed. I’ve found them to be exceptionally responsive in those cases where “emergencies” arose due to storms or accidents.

I consider Cherry Landscape to be one of my better vendors. One that I can depend on to meet contract specifications without close oversight or unnecessary involvement by me. I receive main compliments on the quality of their service from both branch employees and our customers.”

-Bud Sharpe Wells Fargo Southern Arizona

“Larsen Baker, LLC develops and manages a portfolio of commercial properties in Tucson, AZ. We own and operate 34 shopping centers, office buildings and single tenant lease investments in the Tucson area. Cherry Landscape, Inc. has been our landscapers for the past eight years. Cherry’s quality of work is excellent and they always stand behind their work. I would recommend Cherry Landscape Inc. for any projects you are currently running and any future projects.”
