TO WHOM IT MAY CONCERN:

Re: Recommendation for Eng. Ilan Feder C.E.O of D.I.F Engineering and Construction Ltd

D.I.F Engineering and Construction Ltd. managed by Ilan Feder provide various engineering audit and control services for Tel Aviv - Jaffa Municipality infrastructure and building projects.

It should be emphasis, that the vast majority of the Ilan's findings, conclusions and recommendations, presented in his reports, were finally approved and adopted by the city audited and engineering personal.

The root of the success in D.I.F engineering audit reports which performed by ilan and his staff for us ,lies both professionally and the extensive knowledge together with a positive human relations and its pleasant way to reach understandings and agreements.

The work with Ilan and his staff performed in full cooperation with the coordinator officer of the comptroller.

I hereby state that the audit work performed by engineer Ilan Feder is to my complete satisfaction, in cooperation and friendship and certainly helps to improve the engineering work in Tel Aviv - Jaffa.

Best regards,

H. Horowitz- City Comptroller.

Tel Aviv-Jaffa
