Copper State Communications

Re: USDA – Diablo Business Center

Markas Coleman, Lead Technician
Ken Wollert, Service Technician
Lee Hastings, Service Technician
Scott Kerbaugh, Structured Cabling Account Manager

Gentlemen:

I would like to take this opportunity to express our gratitude and appreciation for a job well done on the USDA – Diablo Business Center project.

We were impressed with your ability to assist us on very short notice, from providing a comprehensive cost proposal to completing the job within our scheduled time frame, and even immediately taking care of a few last-minute change requests from our client. Providing us with an excellent value with the workmanship that supports Copper State's esteemed reputation is all we could have hoped for.

We look forward to working with Markas, Ken, Lee, Scott, and the Copper State Communications team of professionals on future projects.

Sincerely,

Kyle Hershberger
Project Engineer - LEED AP
