Copper State Communications

ATTN: **Scott Kerbaugh**, Structured Cabling Sales Manager

CC: **Mike Wilson**, Sales Engineer

**Dave Gilson**, Cable Infrastructure Supervisor

CSC Installation Technicians in Phoenix, Tucson and Flagstaff

Scott, Mike, Dave and Crew – THANK YOU for all you have done for us regarding the voice and data cabling as well as dial tone assistance when we needed it. Knowing the pros are right there alongside us when we need them is quite comforting in this age of highly technical (and sensitive) communications infrastructure cabling.

We wanted to show our thanks for your collective efforts in assisting Goldberg & Osborne in our consistent expansion with your continual interaction with our IT team regarding the cabling for both our new office build-outs and office remodels alike.

In retrospect, we've noticed many similarities we share with Copper State Communications:

<b>Founded in the 1980's</b>	(CSC – 1982 and G&O in 1989)
<b>Started in one city ...and moved into the other ...then added offices in Flagstaff</b>	(Tucson for CSC and Phoenix for G&O) (G&O more quickly than CSC) (for a true state-wide presence in Arizona)
<b>Professionals</b>	(G&O with 25+ lawyers and CSC with 25+ technicians)
<b>Objective</b>	("The proof of our value is in the pudding") RESULTS!

The Goldberg & Osborne IT Team is thoroughly pleased with the quality of workmanship from the Copper State Communications techs and we look forward to future opportunities in which we can work with them again.

Regards,

Justin Horne  
Director of Information Technology  
Goldberg & Osborne
