CB&I - Arizona: Tucson, Goodyear and Tempe
Copper State Communications

ATTN: **Scott Kerbaugh**, Structured Cabling Manager
CC: **Mike Wilson**, Sales Engineer

Scott and Mike,

I have mentioned to you both in person numerous times how much I appreciate each of you, all the techs and Copper State Communications in general. This time I'd like to put it into writing.

From the original Tucson cable installation in 2012 to the additional expansions and AMC "projects" we've had Copper State complete in Goodyear and Tempe over the last 24 months – the consensus among our team here is: "COPPER STATE WILL GET IT DONE!!!"

As the Western Regional IT Manager in charge of "connecting" new offices, I cannot tell you how valuable it has been knowing that EVERY TIME we engage Copper State – they hit it out of the park for our entire team! Having your guys always a few steps ahead of us makes our lives a bit easier in the hectic world of new office turn-up... especially when schedules change – and oh do schedules change!

Additionally, the ability to reach Scott and/or Mike seemingly 24/7 has been our life preserver in the typically atrocious environment of contractor communications. ** Even the Property Managers expressed their amazement over the ease of communicating with any of the Copper State Communications team members. This carries tremendous weight with us.

Mike, Scott and the entire Copper State team – thank you for managing everything – especially the little things when they come up. We've always said that we would recommend Copper State to anyone, and here is the letter to back that claim up.

I look forward to working with the Copper State team on more projects in the future!

**** WHEN CAN WE HIRE COPPER STATE FOR OUR PROJECTS OUTSIDE OF ARIZONA?!**

Regards,
