

## *Testimonials*

*[Our granite countertops] are so beautiful! Good job to all, we are very happy!*

**—Deborah Wade & Devin Brune**

*Out of the myriad projects I've undertaken in my house since moving here in 2000, you and your team exhibited one of the highest degrees of professionalism that I have encountered. Everyone who came to my house was prompt, courteous and friendly. All who I encountered in visiting for slab viewing and other tasks were the same. The finished product is first rate.*

**—Mark**

*I am the Quality Control Manager on a \$116,000,000 Project for the Federal Bureau of Prisons in Tucson. When we started this project, one of my major concerns was the quality that would be achieved with our tile work. My experience on previous projects has not been good. But, we got a superior job from Dean and his troops. Not only did they do good work initially but they were willing to correct or make things right that were not even their mistakes. We were very fortunate to have [them] on our team.*

*[Our project] really looks beautiful!*

**—Scott & Terri**

*This is just to let you know what a beautiful job you did on our kitchen. We are so pleased with it, and it is better than we ever expected. You sent three gentlemen who were all outstanding workers. They were conscientious, polite and did an excellent job. These workers outdid themselves, and did work like we were used to in New York. Thank you for a good experience.*

**—Carol & Tom Rozea**

*Thanks for a great job on our new countertops!*

**—Fred & Rita**

*Thank you for being such gentlemen through all the unforeseen problems of this job. It all looks magnificent, and while there we anxiety producing circumstances we all faced; I always felt you had our interests at heart. I don't know what I would have done without Joel's support. in the end, was worth it!*

**—Pat Smith**

*I wanted you to know how much I appreciate Conway Tile's quality products and craftsmanship. Thanks in part to your expertise; our ASID Design Excellence entry in the residential category less than 3,500 square foot received the first place honor. Thank you for your role in our success. I hope to work with you on many future projects.*

**—Lori Carroll, ASID/HDA**

*Eddie Kelly has been helping us open the niches in our Columbiun and resetting the marble tiles for some time now. I want to tell you how grateful we are for the fine job he does. He is punctual, careful, and very professional; and at the same time has been reverent and considerate. He has always been most respectful and understanding to the families who are in mourning.*
