05/21/19

This last month, we had Skylite USA replace all of our fluorescent bulbs inside and halogen lights outside with LED lights. They did a phenomenal job at an unbelievable price. The quality of the lights and workmanship of the installation team, we're both impeccable. We are saving a great deal of energy, with healthier lighting in the office and warehouse. I recommend every business owner, replace their old lights with LED lights through Skylite-USA.

Sincerely,

John Nourijanian
