SKY LITE, INC

1501 132nd St
College Point, NY 11356

To Whom it may concern

First of all, I want to say thank you very much for the new LED lights that were installed in many of my stores. By using the Con Edison rebate program, I got to save money on my electric bill and make my stores much brighter than before. After having the lights installed in my first store, I was really happy and satisfied with the bright LED lights. That was why I called Sky Lite, Inc again to have my other stores get new LED lights to brighten up the stores.

The meat case with new LED lights were brighter and makes the meats look fresher. The vegetable also looks fresher and customer looked very satisfied with the new lighting all around the store. Employees have also been smiling more and happy that the store is brighter and whiter than before. I know that making customers and employees happy is my number one priority. That is why I have change to a brighter LED light than the old halogen, incandescent lights.

I only had to pay 30% of the Con Edison rebate program to have the LED lights installed. The rest if paid by Con Edison which I am very happy with because I get to save money, make my store brighter with new LED lights, and make everyone happy. I am proud I selected Sky Lite, Inc to install new LED lights in multiple stores in New York City.

Sincerely,

Zamir Abidier
