

April 30, 2021

To Possible Future Clients,

We cannot say enough about TCS (Total Construction Solutions) and its principal Kyle McManus! My husband and I started our journey of building in Plaistow, NH in 2020 with TCS, and from the beginning everything was clear, concise and organized. We had an outlined vision of what was in store; as far as timelines, budget, inclusions/exclusions, not to mention we were also educated along the way by Kyle who has years of both residential and commercial building experience. We had full trust in his abilities of making our dream house become a reality and he did not disappoint!!! We have had multiple strangers stop by and compliment our home and ask for the Builders information as they LOVE our property! Kyle goes above and beyond the whole process and I have happily and confidently given his information out to friends and strangers alike knowing they will have the same great outcome and a home they will love for years to come!

Sincerely,

Michelle + Adam Conceicao

Residential Client
