I have known Jim Frontz for a little over ten years now and I've had the pleasure of working with him on several Federal Government projects as well as my own personal home; his straight-forward philosophy of honesty, reliability, quality of workmanship with attention to his client needs, coupled with a willingness of doing 'whatever it takes' to get the job done have always been his traits and set him apart from others. In particular, I would like to commend Jim and his crew for the 'special efforts' and 'total all-in commitment' they exerted in assisting us successfully overcome numerous unique challenges deriving from the extremely remote location and difficult weather conditions encountered during the construction of a first of its kind 80k-plus sf. Border Patrol Station Complex Facility in West Texas. I would also like to express my deep appreciation and gratitude for a job well done, in replacing the 2k-plus sf. of engineered wood flooring at my home that failed after the builder's warranty had expired; but with Jim's help, we were able to get the manufacture to cover the replacement costs; Jim and his crew did a fantastic job and the new floor looks amazing. Thank You!

I look forward to the opportunity of working with Jim and his crews on other projects in the near future.

V/R,

*Luis R. González*
