Letter of Reference

My OB/GYN's LLC is an active customer of TechnoIP / FONAX's CLOUD Telephony solutions. We are very pleased with the excellent services we're getting from them and the quality of the products we've been using, including the FONAX Color Phones.

Our Company also actively uses the **Graphical Call Queue Module** in order to visually track our patient's incoming calls and thus make decisions on how many operators need to be available at certain hours of the day.

We are very proud to recommend their solutions and services to any company that may need IT solutions of any kind, in particular to anything regarding to IP Unified Communications.

Their support personnel has been very professional and responsive to any changes or requests so far with response times that exceed our expectations.

Sincerely,

A handwritten signature in black ink, appearing to read "A. Angel".
